TUSCARAWAS COUNTY

Tabulation of
PRECIPITATION on the MUSKINGUM RIVER WATERSHED, OHIO
by DAYS and HOURS

Stations for which records are tabulated are listed on pages 2 and 3 and their locations are shown on the map, page 4. Tabulations are made only for days having measurable precipitation and only for those stations at which precipitation was recorded. Blank columns are provided on the hourly tabulation sheets for insertion of six-hour and twelve-hour values.

LEGEND

STATIONS

- | | |
|--------|--|
| IO-2I | Station number. Figure before the hyphen indicates county in which station is located and on the map appears once in large characters in each county. Figure after the hyphen indicates location of station within the county and appears on the map adjacent to the dot designating the station site. |
| IO-2Ib | Small letter following station number indicates that number was formerly used for another nearby station location. |
| MC-2 | Capital letters preceding station number indicate station is in a special study area. MC, for example, designates Mill Creek area. |

PRECIPITATION

- | | |
|---------|---|
| .03 | Precipitation of three-hundredths of an inch. Values are recorded to nearest hundredth of an inch. |
| / | Station installed. Symbol appears on daily tabulation sheet in the column for day of installation. |
| ≠ | Station discontinued. Symbol appears on daily tabulation sheet in the column for day of discontinuance. |
| * — — * | Time of precipitation unknown. Asterisk (*) appears in spaces for first and last hours of period of unknown distribution; dashes (—) appear in spaces for intervening hours. Whenever period of unknown distribution extends for two or more successive days, an asterisk (*) preceding figure indicates amount shown is total accumulated during the period. |
| NR | No record available. Symbol appears on daily tabulation sheet in the column for day where record is missing. No symbol is used unless surrounding stations indicate occurrence of precipitation. |
